

**COMING SOON!**

# Export Missouri

## Product Directory

**Matching Missouri Goods to a Global Marketplace**

- Ⓜ Allows qualified Missouri exporters to showcase their products to buyers around the world every hour of every day.
- Ⓜ Potential buyers can search for products and then contact Missouri companies directly for additional information and to order products.
- Ⓜ Products are listed in categories, based on NAICS codes.
- Ⓜ All of the suppliers offering products are experienced exporters.

### HOW TO PARTICIPATE

Companies must be registered with Export Missouri to list products in the directory; companies already registered (MO STEP=UP or G-MAP) can access the site with their current user name and password.

A company may register by completing the registration process at [www.ExportMissouri.mo.gov](http://www.ExportMissouri.mo.gov). A confirmation e-mail will be sent to companies that successfully complete the registration process.

Registered companies will be notified when they may begin adding products.

### OTHER DETAILS

Each exporter may list up to five products.

Each listing will include a product description, photo, details for ordering, a tab to visit the company's website, and a tab to "Contact Supplier" to send an e-mail for more information or to place an order.

Companies will be sent an e-mail either approving their product submission or requesting additional information.

No registration is required to shop for products.

Product Directory will be accessible to buyers later this Spring, once enough products have been listed.
